Puneet presently working as Assistant Professor of History under School of Social Sciences. He has published research paper in National Conference and attended several Conferences.

Subject Group/Research projects

Sikh History and History o Punjab.

Post-modern perspective in Modern Indian History.

The focus of my research can be broadly described as Sikh History, especially during the period of Sixth Guru Hargobind Singh, when change of emphasis from peaceful propagation of the faith to the forthright declaration of the right to defend that faith by force of arms proved to be extremely popular. Guru Hargobind infused the confidence among the people, that they could challenge the might of the Mughal Empire. I specially focused on Guru Hargobind policies and Guru's contribution towards the Sikhism.
